

**ULUSLARARASI LIONS KULÜPLERİ
ÇOĞUL YÖNETİM ÇEVRESİ 118 KONFEDERASYONU**

Dear Lions,

As we all know the Life has started in the Seas and the Oceans.

The seas are the waters which give life to the living creatures and meaning to being alive.

The Mediterranean, I believe, is the world's most beautiful sea with its many special characteristics and features.

At present more than 20 countries have shores to this beautiful sea. The fantastic geography of the Mediterranean sea is settled by loveable, warm blooded people of humanist personality and fine spiritual build.

Thus may I present my sincere wellcome to all our Lion friends who have visited us from various countries of lovely Mediterranean sea. My heartfelt thanks for the happiness we shared through their participation.

By heartfelt hosting, we want to share the feelings of love and appreciation of our wonderful friends that came from different countries and different cultures who have the common Mediterranean special features .

We shall together work in partnership, as to how and what kind of services we can offer to our environment and the humanity.

I am fully convinced that throughout the conference, the Lions whose code of ethics and international purposes are well known , will work in the name of humanitarian service to achieve positive results.

I also believe this humanitarian service oriented Conference will also generate opportunities for new friendships and fellowships.

In a word, I wish with all my heart, that this Mediterranean Conference which will enhance our service activities and friendships, be successful and fruitful for all my Lion fellows and participants.

With my deepest Lionistic Regards and Warm Wishes.

KAZIM KOCADAĞ
MD118 Council Chairman
