

CONFERENCE OF MEDITERRANEAN LIONS GAMMARTH-TUNISI 26-29 MARCH

RELATION OF MULTIDISTRICT 108 ITALY LIONS ASSOCIATION ONG “WATER FOR LIFE” – PERMANENT NATIONAL SERVICE OF 108 ITALY DISTRICT

“Water for Life” is an association of the 108 Italy Multidistrict borned in Genoa October 7th 2004 which envols Italian lions members with a proved national and international professional experience in the resource of the protection of environment and water resources.

The association is open to all the lions members of Multidistrict 108 Italy, in the order to create a operational tool able to act with autonomy ,without any dependence from other organization that are working on the sector.

The theme related to the project “Water, primary good for the humanity” is of an extreme worldwide actuality and the UE it self has proclaimed “Water for life” primary objective 2005-2015 with the ambitious goal to halve the thirst in the African continent.

Our activity , due to the high finalities, has given life in 2007-2008 to the national Service : Objective Africa : “Water for Life”, subsequently marrying in 2008 with the ONG “The Italian lions against the children mortality” is become permanent national service with the name “ Objective Africa : “Water for life and struggle to the children mortality”

As a matter of fact, on the dynamics of the events on support to African continent, “Water”, with the struggle against the children illnesses, also in respect of other important necessities, is of priority importance.

Is important to underline, in the actual context of the African Forum, that the activity of “Water for Life” is extended to the whole African continent and it is available to welcome every application of collaboration with any African Lions Club, with the intent of possible joined services aimed to satisfy the particular demands of any country.

We bring al your attention that our activity is constantly included in the works of the “ Mediterranean Lions Conference inside the third section dedicated to the environment. I would like to present now the completed activities, those that we are actually realizing and those already planned in the African countries:
